

Implementation of Awareness Raising Toolkit at Urban Areas of Nepal

Status: Completed

Project Partner: The Asia Foundation, Clean Energy Nepal, Alliance for Sustainable Development, Society for Urban Poor, ENPHO/Paschim Paaila and Smart Paani

Project Area: Kathmandu valley, Kirtipur Municipality

Project Duration: 26th September 2012 - 15th September 2013

Aim:

The ultimate goal of the project is to launch awareness toolkit and work with the selected partner organizations to encourage them on implementing the best practices outlined in the toolkit through various awareness activities

Project Description:

ENPHO is one of the organizations supporting the Government of Nepal to attain the goal set forth in the National Sanitation Master Plan by implementing various integrated WASH and IAP projects and awareness raising campaigns all over Nepal. ENPHO, with the support of The Asia Foundation, published an “Awareness Raising Toolkit” in August 2012 to benefit other development organizations, local activists and schools by sharing the challenges and lessons learned in conducting previous public awareness campaigns and mobilizing communities to combat local environmental threats.

In order to disseminate the toolkit widely and make improvements where necessary, ENPHO conducted the project “Implementation of Awareness Raising Toolkit at Urban Areas of Nepal” since October 2012. The selected partner organizations appointed their field level planners and community workers to implement the toolkit so as to make it more participatory.
