

Development of City Sanitation Plan for Madhyapur Thimi municipality and piloting its components through and pro-poor service delivery approach

Status: Completed

Project Partner: WaterAid Nepal

Project Area: Madhyapur Thimi Municipality

Project Duration: July 2014 to March 2016

Aim:

To facilitate the process of development of comprehensive city sanitation plan for Madhyapur Thimi municipality with the view to construct the foundation to base the improvement of urban sanitation for replication to other parts of the nation and to understand its implication and lesson learnt.

Project Description:

The implementation of integrated sanitation plan has been prioritized by consultative meetings with members of M-WASH-CC and Citizen's Forum. The planning project has been developed for Madhyapur City Municipality, with the view to develop practical long term guideline that could address the emerging and challenging issues of urban sanitation which otherwise is not clearly mentioned in any of the document that is supposed to guide the urban sanitation movement in Nepal. The major objective of this project is to prepare planning guideline in the form of city sanitation plan through elaborate research and sector coordination.

Project Outputs:

- Reports on baseline survey and community level meetings
- Reports on technical survey such as river water quality sampling and analysis, solid waste generation and update the existing sewer network in the municipality.
- Formulated City sanitation Plan for Madhyapur Thimi Municipality as the sanitation planning document.

Beneficiaries:

- Total Population of Madhyapur Thimi Municipality
