Reconstruction and Resilience of WASH Services through Capacity Building – Nepal

Status: Ongoing

Project Donor: Global Affairs Canada (GAC)

Project Partner: Centre for Affordable Water and Sanitation Technology

Project Area: Earthquake affected districts (Dolakha, Kavrepalanchwok, Sindhupalchwok, Nuwakot and Dhading)

Project Duration: January 2017 to March 2020

Aim:
- Equip local governments and other community organizations with new knowledge, skills and innovations to better respond to the water and sanitation needs of earthquake affected populations, especially women, men, girls, boys and people of lower castes;
- Increase consumption of potable water by earthquake affected populations, especially women, men, girls, boys and people of lower castes;
- Increase use of gender appropriate, environmentally sustainable, improved sanitation services by earthquake affected populations, especially women, men, girls, boys and people of lower castes

Project Description:
This project is funded by Global Affairs Canada (Department of Trade and Foreign Affairs) and is implemented by ENPHO in partnership with CAWST. With the objective of enhancing the capacity of local organization on technical aspect of WASH and message delivering so that community people can be influenced improve/change their WASH behavior especially in five earthquake affected district namely Dolakha, Kavreupalanchwok, Sindhupalchowk, Nuwakot and Dhading.

Furthermore, this project focuses to provide precise message to community in effective way so as to contribute to change or improve their WASH behaviors. The project activities furthermore will lead to resiliency of communities to manage their WASH needs in the event of a similar natural disaster in the future.
