Reconstruction and Resilience of WASH Service through Capacity Building in Nepal

Status: Ongoing

Project Donor: Global Affairs Canada (GAC)

Project Partner: Centre for Affordable Water and Sanitation Technology

Project Area: Earthquake affected districts: Dolakha, Kavrepalanchwok, Sindhupalchwok, Nuwakot and Dhading

Project Duration: January 2017 to December 2020 (Extended)

Aim:

- To equip local governments and other community organizations with new knowledge, skills and innovations to better respond to the water and sanitation needs of earthquake affected populations, especially women, men, girls, boys and people of lower castes.
- To increase consumption of potable water by earthquake affected populations, especially women, men, girls, boys and people of lower castes;
- To increase use of gender appropriate, environmentally sustainable, improved sanitation services by earthquake affected populations, specially women, men, girls, boys and people of lower castes.

Project Description:

This project is being implemented by ENPHO with the support from GAC and CAWST to enhance the capacity of local organizations on technical aspect of WASH and message delivery so that community people can be influenced to improve or change their WASH behavior.

The project is being undertaken in five earthquake affected districts namely Dolakha, Kavrepalanchwok, Sindhupalchwok, Nuwakot and Dhading.

#### Training Event Organized Under NERF Project till June 2019

- Faecal Sludge Management (FSM)
- Community Health Facilitator Training
- Social Behavior Change Communication (SBCC)
- Learning Exchange Program
- Delivering Effective WASH Training (DEWT) Refresher
- Operation and Maintenance of Water Supply Scheme
- Total Sanitation (SWASTHA Approach)
- Drinking Water Quality Testing (WQT)
- Sensitization Tools for Total Sanitation (STTS)
- Water Safety Plan (WSP)
- Other customized training as per need
- Delivering Effective WASH Training (DEWT)
- Community Health Promotion (CHP)
- Biosand Filter Project Implementation (BSF PI)
Major Achievements:

- Enhanced capacity of local organizations on WASH training and orientation delivery to the community people;

- Out of 3,62,000 project targeted people, 1,33,940 community people are using the gender appropriate sanitation facilities correctly, 2,31,680 people consistently and 2,20,820 people continually. Similarly, 72,400 people are using the water treatment options correctly, 25,340 people consistently and 18,100 people correctly;

- Delivered WASH message to 26,769 (female 6,593, male 4,297, girls 8,707, and boys 7,172) community people directly through trainings using training manual developed by ENPHO Training Centre.
Beneficiaries:

- Out of 3,62,000 project targeted people, 1,33,940 community people are using the gender-appropriate sanitation facilities correctly, 2,31,680 people consistently and 2,20,820 people continually.
- Similarly, 72,400 people are using the water treatment options correctly, 25,340 people consistently and 18,100 people correctly.

Total Beneficiaries from the Project: 1,468 people capacitated (Direct) 26,769 people capacitated through trained human resource (Indirect)
