 Orientation Outline

COVID Orientation: WASH in Quarantine and Isolation

LENGTH: 1.5 hours

1. ORIENTATION DESCRIPTION

This detailed orientation package focuses on specific WASH behaviors to be followed by the people in defined quarantine and isolation centre. With the increased number of infected people with COVID-19, more people are moving to quarantine and isolation centre. And with such movements, it is vital that WASH activities are carried out properly as a necessary precautions in controlling, spreading the disease further, which is core of the package.

WASH behaviors to be carried out by different individuals including the suspected, infected, care taker, health professionals, and other supporting individuals is discussed in the package. Guideline for necessary WASH facilities to carry out defined WASH behaviors is another focus of the package.

2. OBJECTIVES

Upon completion of the orientation, participants will be able to:

- Discuss the WASH behaviors needed to perform by different individuals in quarantine and isolation centre.
- Define WASH facilities guidelines formulated for the quarantine and isolation centre

3. PARTICIPANTS

The orientation is targeted towards WASH professionals such as field officers and project coordinators who are directly or indirectly involved with these centre.

4. METHODS OF INSTRUCTION

This is online based orientation and it is targeted to deliver through the use of various online applications such as zoom, miro, teams, etc. This orientation includes various activities like small group discussion, polling, question and answer and video shows which make this orientation interactive and participatory rather than one way delivery.
