

## Conducting a Scoping Assessment in Gulariya Municipality of Bardiya District within a focus on Urban Sanitation including FSM

**Status: Completed**

**Project Partner:** WaterAid Nepal

**Project Area:** Gulariya Municipality, Bardiya

**Project Duration:** March 2018 to April 2018

### **Aim:**

- To assess the current knowledge, attitude and practices of the municipal people on water, sanitation and hygiene behavior;
- To conduct a scoping assessment on urban sanitation towards total sanitation including Faecal Sludge Management

### **Project Description:**

The assessment was carried out in Gulariya municipality of Bardiya district with a focus on Urban Sanitation towards total sanitation including Faecal Sludge Management (FSM). This assignment was conducted to identify the current status, gaps, needs and opportunities of urban sanitation interventions in the municipality.

### **Project Outputs:**

- Conducted and facilitated Focus Group Discussions (FGDs) and surveys for information
- Coordinated with different agencies, organizations, local governments bodies and institutions to gather information needed for scoping assessment
- Compiled overall information and recommend key WASH intervention package towards urban sanitation of the municipality

### **Major Achievements:**

- Prepared the final report of scoping assessment with key recommendations and way forwards.
