

Workshop Outline

Sensitizing Tools for Total Sanitation

LENGTH: 3 to 4 days

WORKSHOP DESCRIPTION

This workshop is intended to give detail information on the knowledge and skills required for sensitizing the community for attaining open defecation free area. The workshop is a tool to meet the National Goal (NG) of attaining universal sanitation by the year 2017. This workshop provides necessary skills to sensitize the community so that the community internalizes the need of latrine hence attaining open defecation free community. With the past experience of providing subsidy for the latrine construction, the focus has had been on the construction of latrine rather than the proper operation and regular maintenance of latrine. However, with the workshop, it is intended to vigilant people and use the latrine, thus meeting the goal of attaining universal coverage of sanitation, quantity as well as qualitatively.

OBJECTIVES

Upon completion of the workshop participants will be able to:

- To build up capacity of trainers regarding Sanitation Triggers necessary to achieve an ODF status via sensitizing tools.
- To explain WASH status.
- To enhance knowledge and understanding of the sensitizing tools necessary for the achievement of Total Sanitation status
- To develop skills to trigger collective local action through hands-on field experience
- Gain training skills to train field level motivators and managers
- To explain and demonstrate knowledge and skill regarding sanitation triggers and attitude towards aptly utilizing such triggers to effectively build up a rapport within the community
- To understand and describe the meaning of Total Sanitation.
- To develop an action plan towards declaring ODF zones using the sensitizing tools.

PARTICIPANTS

This workshop is developed for the following target audiences who are directly involved in community mobilization and community sensitizing:

- Field based staffs
- Community WASH volunteers
- Public sector employees
- Community members

METHODS OF INSTRUCTION

This participatory style workshop includes theory, classroom exercises, open discussion, demonstrations, hands-on practice and field practice of tools discussed in the workshop. Active participant engagement in learning activities is highly encouraged.
