

Workshop Outline

Education Program Development Workshop

Length: 2 days

Workshop Description:

This workshop focus on developing the lesson plan or instructional design required for the effective training. Participants will discuss and practice creating instructions to make the acquisition of knowledge and skill more efficient, effective and appealing during the training. The process consists broadly of discussing what education development package (EPD) is or instructional design, importance of EPD, process of developing EPD or lesson plan.

Objectives:

The main objective of the workshop are:

- To introduce education program development along with importance of EPD
- Discuss the process of developing EPD and
- Development of lesson plan

Participants:

The workshop is oriented towards participants who are:

- Working in training or capacity development on water, sanitation and hygiene, community development, or health projects
- Motivated to work with trainers providing training on safe water, improved sanitation and proper hygiene
- Currently delivering WASH training and motivated to follow an instructional design for effective learning,

Methods of Instruction:

- This participatory style workshop includes theory, classroom exercises, demonstrations and varied discussion types to share experiences.
- There will be opportunities for participants to practice and develop an instructional design for a session of a training
- Active participation in all learning activities is highly encouraged.
