

## Workshop Outline

---

### **WASH in School**

**LENGTH: 3 days**

#### **WORKSHOP DESCRIPTION**

This workshop is designed for managing WASH in school and deals on maintaining the basic WASH requirements and upgrading the existing WASH facilities in schools to meet the standard guideline of WASH in schools. This workshop also deals on the roles and responsibilities that different stakeholders hold to manage all the WASH facilities required in the school.

To this, facilitation skills required for transferring the knowledge to the targeted audience is one of the key component of the outline and has been incorporated in the package. Along with it, practicing the knowledge transfer to the students for the effective delivery is highlighted in the package.

#### **OBJECTIVES**

The objectives of the workshop are as follow:

- To enhance the knowledge on WASH in school.
- To Maintain and upgrade WASH facilities in schools and also to make it sustainable.

#### **PARTICIPANTS**

The workshop is oriented towards participants who are in:

- Parents Teachers Association
- School Management Committee
- Teachers and
- Related stakeholders

This is an intermediate level workshop where participants will be able to gain knowledge and information on various techniques to maintain WASH in school. Participants will observe demonstrations, participate in group activities, discussions and practice different techniques to deliver messages. However, this workshop is not intended to provide full training on the construction of each technology or implementation of projects on particular aspects.

#### **METHODS OF INSTRUCTION**

Participatory approaches are used to engage everyone actively in the lessons throughout this workshop. Effective learning often comes from shared experiences and participants learning from each other. Much of the course content is delivered through interactive presentations, demonstrations, group activities and group discussions.

#### **CONTENT**

The following is a list of the topics to be covered in the Workshop.

- WASH in school
- Disease transmission and blockage

- Safe water and PoU options
- Latrine: Proper Use and Upgrading
- Keeping School Clean
- Maintaining Hygiene
- Roles to make WASH Sustainable in school
