

NEPAL SANITATION TOUR 2025

Exploring Sanitation Initiatives in Nepal

26 - 28 March, 2025

Introduction

The Nepal Sanitation Tour is a strategic initiative aimed at highlighting different sanitation initiatives across various cities in Nepal. The tour seeks to promote knowledge sharing among sanitation stakeholders while offering detailed insights into successful sanitation through site visits, demonstrations, and discussions with stakeholders.

Objective

Empower participants to understand and learn from Nepal's various sanitation initiatives implemented by government agencies, development partners, and the private sectors.
