

## Water Quality Analysis Services

# Client Customized Package

We offer flexible test packages that allow you to select the precise parameters you want assessed—tailored to your compliance needs.

### Physical Parameters

- Turbidity
- pH
- Color
- Odor
- Electrical Conductivity

### Microbiological Parameters

- Total Coliform
- E.coli

### Chemical Parameters

- |             |                          |
|-------------|--------------------------|
| → Iron      | → Sulphate               |
| → Manganese | → Nitrate                |
| → Arsenic   | → Copper                 |
| → Fluoride  | → Zinc                   |
| → Ammonia   | → Aluminium              |
| → Chloride  | → Total Hardness         |
|             | → Free Residual Chlorine |

**Exclusive student offer  
15% off every test**

**Sample collection  
available until 2:30 PM,  
Monday to Friday**

**Sample collection  
available at an additional  
service charge**
