

Faecal sludge Analysis Services

Physico-Chemical Parameters

Ammonia
BOD
Chloride
COD
Colour
Electrical conductivity
pH
Phenol
Sludge volume index
Sulfide
Temperature
Total alkalinity
Total dissolved solids
Organic nitrogen
Total Kjeldahl Nitrogen
Total phosphorus
Total solids
Total suspended solids
Turbidity
Moisture Content
Volatile solids
Volatile suspended solids

Microbiological Parameters

Faecal coliform
Helminths
Total coliform and E. coli

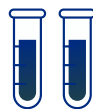

Physico-Chemical (Metal & Metalloids)

Potassium

For students only.

Condition applied

Sample collection services available.

Additional charge applied

All samples should be provided by 2:30 PM, Monday to Friday.

The report will be delivered on the basis of parameters selected by clients.
